

BREAST AND CERVICAL CANCER PROGRAM

The Breast and Cervical Cancer Program is funded by the Centers for Disease Control and Prevention and State of Maryland to provide breast and cervical cancer screening services to low income, uninsured or underinsured women.

For more information, contact:
410.767.5281 or 1.800.477.9774

BREAST & CERVICAL CANCER DIAGNOSIS & TREATMENT PROGRAM

Funded by the State of Maryland, the Program provides reimbursement for breast and cervical cancer diagnosis and treatment to low income, uninsured or underinsured residents of Maryland.

For more information, contact:
410.767.6787

MARYLAND CANCER REGISTRY

The Maryland Cancer Registry (MCR) collects, maintains, and reports on all new reportable cancers diagnosed in people in Maryland.

The MCR tracks the number of people with cancer and it helps local health departments to plan for cancer services.

Program Descriptions

CENTER FOR CANCER SURVEILLANCE AND CONTROL

The mission of the Center for Cancer Surveillance and Control (CCSC) is to reduce the burden of cancer in Maryland by:

- Providing guidance, support and funding for effective cancer programs;
- Fostering collaboration among partners; and
- Evaluating outcomes through data collection and analysis.

COMPREHENSIVE CANCER CONTROL PROGRAMS UNIT

Maryland Comprehensive Cancer Control Programs Unit comprises the following programs:

Maryland Comprehensive Cancer Control Plan

The Maryland Comprehensive Cancer Control Plan is a resource guide for health professionals involved in cancer control in Maryland. The Plan represents the coordinated effort of over 200 individuals across the state that came together through 14 committees and a Core Planning Team to develop a document that reflects the needs of Marylanders.

Maryland State Council on Cancer Control

The Maryland State Council on Cancer Control (Council) is a 25 member body appointed by the Governor. The members are elected from State

agencies, the general public, the business community, cancer survivors, and the health and scientific disciplines concerned with cancer control.

The Council advises the Governor, government officials, public and private organizations, and the general public on comprehensive State policies and programs necessary to reduce and control the incidence and mortality of cancer in Maryland.

Colorectal Cancer Screening Demonstration Project

The program provides colorectal cancer screening for Baltimore City residents who meet the eligibility guidelines.

Maryland Cancer Fund

The Maryland Cancer Fund is a resource for funding for cancer prevention, screening, treatment, and research in Maryland.

The program is primarily funded by contributions made by Maryland residents in an income tax check-off system on the Maryland annual tax return.

For more information, contact:
410.767.0963

CIGARETTE RESTITUTION FUND PROGRAM

Surveillance and Evaluation Unit

Analyzes and monitors data relating to breast, cervical, colorectal, lung, melanoma, oral, and prostate cancers; measures and evaluates screening and treatment programs in the State; and conducts a bi-annual cancer survey.

For more information, contact:
410.767.0791

CIGARETTE RESTITUTION FUND PROGRAMS UNIT

The Cigarette Restitution Funds Programs Unit comprises of the following consists of the following five programs:

Cancer Prevention, Education, Screening, and Treatment Program

Administers grants to local health departments and academic centers to reduce cancer mortality and cancer disparities in Maryland.

Statewide Academic Programs: Cancer Research, Statewide Health Network and Other Tobacco-Related Diseases Research

The University of Maryland and Johns Hopkins University provides education, screening, diagnosis, treatment, and research on targeted cancers.

The program utilizes a wide variety of prevention activities and research to reduce cancer and tobacco-related diseases.

Maryland Skin Cancer Prevention Program

The program engages individuals and groups from diverse sectors to raise awareness about skin cancer and to promote the adoption of sun safe behaviors.

Charles County Prostate Cancer Pilot Program

The Charles County Prostate Cancer Pilot Program educates residents about prostate cancer and provides screening for eligible men in Charles County.
